

# ARINDAM RATHORE

Software Engineer — Backend Developer — API Architect

arindam.rathore26@gmail.com — LinkedIn: arindam-rathore — Bengaluru, Karnataka, India

## PROFESSIONAL SUMMARY

---

Results-driven Software Engineer with 2+ years of experience building scalable backend systems and RESTful APIs for enterprise applications. Proven track record of optimizing database performance by 25% and reducing testing cycles by 60% through automation. Expertise in Java, Groovy, MySQL, Docker, and CI/CD pipelines. Passionate about solving complex problems with clean, efficient, and maintainable code.

## TECHNICAL SKILLS

---

**Programming Languages:** Java, Groovy (Grails Framework), SQL

**Databases:** MySQL, Oracle DB, Database Schema Design, Query Optimization

**Backend & APIs:** RESTful API Development, Microservices, Spring Framework

**DevOps & Tools:** Docker, Jenkins, CI/CD Pipelines, Git, Postman

**Testing & Automation:** Playwright, API Regression Testing, Test Automation

**Core Competencies:** System Design, Database Management (DBMS), Performance Optimization

## PROFESSIONAL EXPERIENCE

---

### Software Engineer I

*Ellucian*

**June 2023 – July 2025**

Bengaluru, Karnataka, India

- Engineered and deployed **15+ production-grade RESTful APIs** powering core student information workflows, improving data reliability and enabling seamless integration across Ellucian's product ecosystem
- Designed and optimized **MySQL and Oracle database schemas**, achieving **25% improvement in query performance** and enabling faster, more scalable backend operations for high-traffic applications
- Automated API regression testing and streamlined CI/CD pipelines using **Playwright, Jenkins, and Docker**, reducing manual testing time by **60%** and accelerating release cycles
- Collaborated with cross-functional teams to deliver scalable, maintainable solutions following industry best practices and Agile methodologies

### Technical Intern

*Ellucian*

**February 2023 – May 2023**

Bengaluru, Karnataka, India

- Contributed to the development of **business logic APIs** that automated key student data workflows, reducing manual operations and improving operational efficiency
- Designed and implemented MySQL database schemas for backend services, enhancing data consistency and enabling efficient data retrieval
- Gained hands-on experience with Groovy on Grails, REST API development, MySQL, Git version control, and API testing using Postman

## EDUCATION

---

### Bachelor of Engineering in Computer Science

*Visvesvaraya Technological University*

**August 2019 – July 2023**

Karnataka, India

## KEY ACHIEVEMENTS

---

- Reduced API testing time by 60% through comprehensive test automation framework implementation
- Improved database query performance by 25% through schema optimization and indexing strategies
- Successfully delivered 15+ APIs to production with zero critical bugs in post-deployment phase
- Streamlined CI/CD workflows, reducing deployment time and improving team productivity
