Professional Summary

Experienced Backend Engineer with over 4 years of experience designing scalable and performant Backend Applications using Python and Django, designing Rest APIs and using AWS platform for the deployment. Adopting industry standards of TDD for the day-to-day development. Proven ability to deliver reliable, high-performance backend solutions in dynamic, fast-paced environments.

Technical Skills

Programming Language	Python
Web frameworks	Django
AWS services	Lambda, CodeBuild, CodePipeline, S3, API Gateway, Step Functions, SQS, EventBridge
Databases	MySQL, PostgreSQL
Tools & Version Control	Git, GitHub
Development Practices	Test-Driven Development (TDD), Agile Methodology

Professional Experience

Tata Consultancy Services LTD — Team Lead

🔗 IT Analyst (Team Lead) Jan 2025 – Present

- Designing scalable backend solutions for very large data flow ensuring **minimum latency, high availability** and **optimal resource utilization** using AWS services.
- Mentoring a team of 5+ developers, fostering knowledge sharing and enhancing code quality.
- **Project ownership** (delivering complex features, working with large datasets, and optimizing responses)

🔗 System Engineer (Senior Developer) July 2021 – Dec 2024

- Designed and deployed RESTful APIs using server less architecture (AWS Lambda, API Gateway).
- Optimized performance of **20+ APIs** resulting in improving overall system performance by almost **80%**
- Used version control best practices with Git and GitHub, ensuring seamless team collaboration and codebase maintenance.

🔗 Assistant System Engineer (Junior Developer) Nov 2020 – June 2021

- Migrating an old **Retail Chain Management system** from onPrem to AWS.
 - System was previously based on **monolithic architecture**, we have migrated it and taken benefits of **micro service architecture**.
 - Developed and maintained scalable backend solutions.
 - Contributed to the design and implementation of API endpoints to enable efficient and seamless server-client communication.
-

Projects

The Third Eye

- A cross-platform mobile app using Flutter to empower visually impaired users with touch and gesture-based navigation.

Birth/Death Online Certification System

- Engineered a blockchain-based solution using Ethereum to create tamper-proof birth/death certificates.
-

Education

Bachelor of Computer Science - Software Engineering

🔗 ABES Institute of Technology, 2016 – 2020
